Our study of hydraulic fracturing and its potential impact on drinking water resources: We studied the relationship between hydraulic fracturing for oil and natural gas and drinking water resources. The study includes a review of published literature, analysis of existing data, scenario evaluation and modeling, laboratory studies, and case studies.

Unconventional Oil and Natural Gas Development | US EPA

Wastewater (or waste water) is any water that has been affected by human use. Wastewater is "used water from any combination of domestic, industrial, commercial or agricultural activities, surface runoff or stormwater, and any sewer inflow or sewer infiltration". Therefore, wastewater is a byproduct of domestic, industrial, commercial or agricultural activities.

Wastewater - Wikipedia

The Gila County Wastewater Department is committed to providing professional, prompt and effective services to all citizens of Gila County. The Wastewater Department receives its authority by delegation from the Arizona Department of Environmental Quality ADEQ .
