Proponents of the trade say growth of internet access is a stronger correlation to trade than poverty. Haiti is poor and closer to the port of New York than southeast Asia, but far more electronic waste is exported from New York to Asia than to Haiti. Thousands of men, women, and children are employed in reuse, refurbishing, repair, and re-manufacturing, unsustainable industries in decline in ...

Noise is a hassle in just about everything and in electronics and electrical circuits it is no less of a concern. However, it is something we can handle with some planning and if that fails a little knowledge will get us a long way to figure out a "work around" and living with the problem at an acceptable level.

Table 1: The four levels/modes of processing. Figures 3, 4, and 5 show how within the processing model, cognition depends upon context. The effectiveness of the contribution of processing activities at each of these levels / modes, depends on the cognitive requirements posed by the specific context.

It was discovered later that not all of the atoms of a particular element have the same mass. The different varieties (different number of neutrons, same number of protons) of the same element are called its isotopes. The atomic masses now appear in the Periodic Table is the average atomic mass weighted by the abundance of each isotope.
