

### **illustrated case histories of pdf**

In the social sciences and life sciences, a case study is a research method involving an up-close, in-depth, and detailed examination of a subject of study (the case), as well as its related contextual conditions.. Case studies can be produced by following a formal research method. These case studies are likely to appear in formal research venues, as journals and professional conferences ...

In r/K selection theory, selective pressures are hypothesised to drive evolution in one of two generalized directions: r- or K-selection. These terms, r and K, are drawn from standard ecological algebra as illustrated in the simplified Verhulst model of population dynamics:  $\frac{dN}{dt} = rN \left(1 - \frac{N}{K}\right)$  where N is the population, r is the maximum growth rate, K is the carrying capacity of the local environment, and ...
