American Chemical Society - ACS Publications Home Page

International Journal of Materials Science and Applications (IJMSA) is an interdisciplinary journal devoted to experimental and theoretical research on the synthesis, structure, properties and applications of materials. Particular interest is placed on materials having relevance to microelectronics, photonics and micromachining. IJMSA welcomes the following tier 1 article types: Book Review ...

International Journal of Materials Science and

The natural structure of higher plants allows for the transport of nutrients via xylem and phloem to distal cells, e.g. from roots to leaves and leaves to roots or other leaves.

Crossing kingdoms: Using decellularized plants as

The Journal of Materials Science publishes reviews and full-length papers recording original research results on, or techniques for, studying the relationship between structure, properties, and uses of materials. The subjects are ...

View one new peer-reviewed research article from any ACS journal, selected daily, and made open access based on recommendations by ACS journal scientific editors from around the world.

Journal of the American Chemical Society (ACS Publications)

American Journal of Life Sciences (AJLS) is an international journal publishing articles that emphasize living organisms, like plants, animals, and human beings, as well as related considerations like bioethics. All articles are rigorously reviewed. Articles should be written at a level accessible to readers who are non-specialists in the topic of the article themselves, but who are interested ...

American Journal of Life Sciences :: Science Publishing Group

A polymer is a large molecule, or macromolecule, composed of many repeated subunits. Polymers, both natural and synthetic, are created via polymerization of many small molecules, known as monomers.

A biomaterial is any substance that has been engineered to interact with biological systems for a medical purpose - either a therapeutic (treat, augment, repair or replace a tissue function of the body) or a diagnostic one. As a science, biomaterials is about fifty years old. The study of biomaterials is called biomaterials science or biomaterials engineering.

Journal of Marine Science and Engineering (ISSN 2077-1312) is an international peer-reviewed open access journal of marine science and engineering published quarterly online by MDPI.. Open Access - free for readers, with article processing charges (APC) paid by authors or their institutions.; High visibility: Indexed in the Emerging Sources Citation Index (ESCI) - Web of Science and Inspec (IET).

Journal of Marine Science and Engineering - JMSE MDPI

A brief overview of the fundamental charge carrier dynamic processes including interfacial electron transfer, excitons fission, and combination in optoelectronic materials is provided. The energy/electron transfer dynamics in solar energy conversion revealed by transient absorption spectroscopic techniques are discussed in detail.
