A syllable is a unit of organization for a sequence of speech sounds. It is typically made up of a syllable nucleus (most often a vowel) with optional initial and final margins (typically, consonants). Syllables are often considered the phonological "building blocks" of words. They can influence the rhythm of a language, its prosody, its poetic metre and its stress patterns.

Thomas' gift of prophecy is linked to his poetic ability. It is not clear if the name Rhymer was his actual surname or merely a sobriquet.
