Major depressive disorder (MDD), also known simply as depression, is a mental disorder characterized by at least two weeks of low mood that is present across most situations. It is often accompanied by low self-esteem, loss of interest in normally enjoyable activities, low energy, and pain without a clear cause. People may also occasionally have false beliefs or see or hear things that others ...

The G8 section on this web site also looks in more detail at the way Western nations appear to have offered to help Africa, e.g. through wiping out their debts, but that in reality it turns out far less has actually happened, and that G8 nations are amongst the ones that have actually played a big role in Africa's current problems.. Hence, as well as looking into the urgent and critical ...

Conflicts in Africa"Introduction" Global Issues

A parasite is an organism that lives on or in a host and gets its food from or at the expense of its host. Parasites can cause disease in humans. Some parasitic diseases are easily treated and some are not. The burden of these diseases often rests on communities in the tropics and subtropics, but parasitic infections also affect people in developed countries.
