

materials process print creative pdf

Recycling is the process of converting waste materials into new materials and objects. It is an alternative to "conventional" waste disposal that can save material and help lower greenhouse gas emissions. Recycling can prevent the waste of potentially useful materials and reduce the consumption of fresh raw materials, thereby reducing: energy usage, air pollution (from incineration), and water ...

Recycling - Wikipedia

Process art is an artistic movement as well as a creative sentiment where the end product of art and craft, the objet d'art (work of art/found object), is not the principal focus. The 'process' in process art refers to the process of the formation of art: the gathering, sorting, collating, associating, patterning, and moreover the initiation of actions and proceedings.
