

oracle data mining pdf

Data Mining and OLAP. On-Line Analytical Processing (OLAP) can be defined as fast analysis of shared multidimensional data. OLAP and data mining are different but complementary activities. OLAP supports activities such as data summarization, cost allocation, time series analysis, and what-if analysis.

What Is Data Mining? - Oracle

Data mining is the process of discovering patterns in large data sets involving methods at the intersection of machine learning, statistics, and database systems. Data mining is an interdisciplinary subfield of computer science with an overall goal to extract information (with intelligent methods) from a data set and transform the information into a comprehensible structure for further use.
