

php complete reference by pdf

Being new to PHP at the time this book came in great hand. I decided to buy the book format from Amazon. Not only to support the person who created this book, it is nice to read something off screen for a change and have something to hand. I use it everyday for reference and cannot highly recommend it enough. This is the best book i have ever owned.

PHP Book PDF | PHP Reference Book Blog

PHP: The Complete Reference explains how to personalize the PHP work space, define operators and variables, manipulate strings and arrays, deploy HTML forms and buttons, and process user input.
