Certified Associate in Project Management (CAPM) is a credential offered by the Project Management Institute (PMI).. The CAPM is an entry-level certification for project practitioners. Designed for those with less project experience, the CAPM is intended to demonstrate candidates' understanding of the fundamental knowledge, terminology and processes of effective project management.

**Certified Associate in Project Management - Wikipedia**

Agile software development is an approach to software development under which requirements and solutions evolve through the collaborative effort of self-organizing and cross-functional teams and their customer(s)/end user(s). It advocates adaptive planning, evolutionary development, early delivery, and continual improvement, and it encourages rapid and flexible response to change.
