In formal language theory, a grammar (when the context is not given, often called a formal grammar for clarity) is a set of production rules for strings in a formal language. The rules describe how to form strings from the language's alphabet that are valid according to the language's syntax. A grammar does not describe the meaning of the strings or what can be done with them in whatever context ...

Michael Alexander Kirkwood Halliday (often M.A.K. Halliday; 13 April 1925 – 15 April 2018) was an English-born linguist who developed the internationally influential systemic functional linguistic SFL model of language. His grammatical descriptions go by the name of systemic functional grammar. Halliday describes language as a semiotic system, "not in the sense of a system of signs, but a ...
