

science of handwriting analysis pdf

1) Analysis The first step is to analyze the known writing sample and the unknown writing sample for distinctive characteristics. The examiner looks for unique qualities such as letters and word spacing, letter and word slant, size and proportional-ity of letters, unusual formations of letters, flourishes, and other individual attributes.

The Science of Handwriting Analysis - robsonforensic.com

The theory underlying graphology is that handwriting is an expression of personality; hence, a systematic analysis of the way words and letters are formed can reveal traits of personality. Graphologists note such elements as the size of individual letters and the degree and regularity of slanting, ornamentation, angularity, and curvature.
