unix and shell programming pdf

The Unix system is composed of several components that were originally packaged together. By including the development environment, libraries, documents and the portable, modifiable source code for all of these components, in addition to the kernel of an operating system, Unix was a self-contained software system. This was one of the key reasons it emerged as an important teaching and learning ...

Unix - Wikipedia

In computing, a shebang is the character sequence consisting of the characters number sign and exclamation mark (#!) at the beginning of a script.It is also called sha-bang, hashbang, pound-bang, or hash-pling.. In Unix-like operating systems, when a text file with a shebang is used as if it is an executable, the program loader parses the rest of the file's initial line as an interpreter ...
