

war and the works pdf

The War of the Worlds (1898) is a science fiction novel by H. G. Wells. It describes the memoirs of an unnamed narrator in the suburbs of Woking, Surrey, England who recounts an invasion of Earth by an army of Martians with military technology far in advance to human science. It is said to be the first story that details a human conflict with, and overall defeat by, an extraterrestrial race.

War is a state of armed conflict between states, governments, societies and informal paramilitary groups, such as mercenaries, insurgents and militias. It is generally characterized by extreme violence, aggression, destruction, and mortality, using regular or irregular military forces. Warfare refers to the common activities and characteristics of types of war, or of wars in general.
