Survival skills are techniques that a person may use in order to sustain life in any type of natural environment or built environment. These techniques are meant to provide basic necessities for human life which include water, food, and shelter. The skills also support proper knowledge and interactions with animals and plants to promote the sustaining of life over a period of time.

The present disambiguation page holds the title of a primary topic, and an article needs to be written about it. It is believed to qualify as a broad-concept article. It may be written directly at this page or drafted elsewhere and then moved over here. Related titles should be described in Survival, while unrelated titles should be moved to Survival (disambiguation).

While on the trail: â€¢ Let nature's sounds prevail by traveling in small groups, and avoid making

excessive noise • Pick up any litter you may drop or find • Minimize trail impact by staying on designated trails, not cutting switchbacks and walking through muddy spots or puddles so as not to widen the trails • Practice the wilderness motto of Leave No Trace of your visit.
